## ORGANIZATIONAL STRUCTURE

**Please refer to our website for the most updated version of this section for your manual. We recommend that you check for updates in each quarter, in order to maintain up to date information. The following instructions will assist you in updating section 2.3 of this manual.**

1. [www.wcss.ab.ca](http://www.wcss.ab.ca)
2. Hold your mouse over Contingency Manual – allow time to show the drop-down menu

The screenshot shows the website for Western Canadian Spill Services Ltd. (WCSS). The navigation menu at the top includes: HOME, ABOUT US, EQUIPMENT, TRAINING, MAPS, WCSS CONTACTS, CONTINGENCY MANUAL, R & D, and PUBLICATIONS/REPORTS. The 'CONTINGENCY MANUAL' menu item is circled in red, and a red arrow points to it from the text above. A drop-down menu is visible below 'CONTINGENCY MANUAL', containing three items: 'Generic Manual', 'Updates', and 'Control Point Maps'. The main content area features a header 'PETROLEUM INDUSTRY'S COMMITMENT TO SPILL PREPAREDNESS & ENVIRONMENTAL PROTECTION' and a 'WHAT'S NEW' button. Below this, there are four image-based links: 'EQUIPMENT', 'TRAINING', 'CONTINGENCY MANUAL', and 'WCSS CONTACTS'. The 'OUR PURPOSE' section describes the organization's role in spill response readiness. At the bottom, there are links to view the June 2009 issue and to click on the 'What's New' section. The footer contains the same navigation menu and a copyright notice for 2007.
